# Overview of the Court's statistics in 2012

## A. Number of new applications

In 2012 65,150 applications were allocated to a judicial formation, an overall increase of 1% compared with 2011 (64,400). 48,350 of these were identified as Single-Judge cases likely to be declared inadmissible (an increase of 1% in relation to 2011). 16,800 were identified as Chamber or Committee<sup>1</sup> cases (an increase of 3%).

## B. Applications disposed of judicially and pending applications

87,879 applications were disposed of judicially, an increase of 68% in relation to 2011 (52,188). The number of cases disposed of therefore exceeded those allocated by approximately 22,700 (i.e. a monthly surplus of almost 1,900). As a result, and for the first time since 1998, the stock of allocated applications pending before the Court decreased over the year, by 16% from 151,600 to 128,100.

## C. Processing of applications

### 1. Pre-allocation

Before a case is allocated to a judicial formation applicants are required to complete the application form and submit the necessary supporting documents on pain of administrative disposal. As at 31 December 2012 the number of applications pending at this pre-judicial stage stood at 20,300, a decrease of 10% in relation to the same date the previous year (22,600). The number of applications disposed of administratively in 2012 was 18,700, an increase of 39%.

### 2. Inadmissibility or strike out decisions

In 2012 86,201 applications were declared inadmissible or struck out of the list of cases by a Single Judge, a Committee or a Chamber, a 70% increase compared with 2011 (50,677). The Single-Judge formation decided 81,764 cases in 2012, an increase of 74% compared with 2011 (46,930). This increase is due to the introduction of new working methods and to the fact that in 2012 more judges were appointed Single Judges. The number of applications struck out, in a decision or a judgment, following a friendly settlement or a unilateral declaration, increased by 25% in 2012 (1,532 in 2011). Friendly settlements increased by 57%, but there were 14% fewer unilateral declarations.

### 3. Communicated applications

Where an application is not on its face inadmissible, it is communicated to the respondent Government. In 2012 5,238 applications were communicated (a decrease of 2% in relation to 2011 when 5,360 applications were communicated). This decrease can be explained by efforts to concentrate on more time-consuming priority applications, a higher number of which were communicated to the governments (see D. below).

---

<sup>1</sup> Committee competence provided for in Article 28 § 1 b) of the Convention.

#### **4. Judgments**

Judgments were delivered in respect of 1,678 applications (compared with 1,511 in 2011 – an increase of 11%). A significant proportion of these applications were joined with the result that the number of judgments actually delivered was 1,093, a decrease of 6%. 206 judgments were adopted by a three-judge Committee formation under the new procedure introduced by Protocol 14.

#### **5. Requests for interim measures (Rule 39 of the Rules of Court)**

The total number of decisions on interim measures (1,973) decreased by 29% compared with 2011 (2,782). The Court granted requests for interim measures in 103 cases (a decrease of 70% compared with 342 in 2011) and dismissed them in 1,203 cases (33% less than the 1,807 in 2011). The remainder fell outside the scope of Rule 39 of the Rules of Court.

### **D. Priority policy<sup>2</sup>**

In June 2009 the Court adopted a priority policy establishing seven different categories. The essence of this policy is to concentrate more resources on the most important cases, namely the cases falling within the top three categories ("priority applications"). At 31 December 2012 there were 6,568 applications in these categories.

The number of priority applications dealt with in 2012 increased by 30% compared to 2011. 16% more priority applications were communicated to the respondent Governments in comparison with 2011. The number of priority applications declared inadmissible or struck out of the list of cases by a Chamber or Committee increased by 61%. The number of priority applications struck out following a friendly settlement or a unilateral declaration rose from 146 in 2011 to 158 in 2012. The number of priority applications giving rise to a judgment increased by 33% in 2012 and represented 33% of the total number of applications dealt with by judgments in 2012 (compared to 27% in 2011).

---

<sup>2</sup> An explanation of the Court's priority policy can be found on the Court's internet site <http://www.echr.coe.int/ECHR/EN/Header/The+Court/How+the+Court+works/Case+processing/>.

## General information

Table 1 General statistical information

### 1. Applications allocated to a judicial formation

[round figures (50)]

	2012	2011	+/-
Applications allocated	65150	64400	1%

### 2. Interim procedural events

	2012	2011	+/-
Applications communicated to respondent Government	5238	5360	-2%

### 3. Applications decided

	2012	2011	+/-
By decision or judgment	87879	52188	68%
- by judgment delivered	1678	1511	11%
- by decision (inadmissible or struck out)	86201	50677	70%

### 4. Pending applications [round figures (50)]

	31/12/2012	1/1/2012	+/-
Applications pending before a judicial formation	128100	151600	-16%
- Chamber (7 judges)	43050	45850	-6%
- Committee (3 judges)	25200	13700	84%
- Single-Judge formation	59850	92050	-35%

### 5. Pre-judicial applications [round figures (50)]

	31/12/2012	1/1/2012	+/-
Applications at a pre-judicial stage	20300	22600	-10%
	2012	2011	+/-
Applications disposed of administratively (applications not pursued)	18700	13450	39%

## Number of applications allocated to a judicial formation<sup>3</sup>

Figure 1 Applications allocated to a judicial formation per year

Figure 2 Applications pending before a judicial formation

<sup>3</sup> Figures represent the total number of applications, including joined applications. The document generally gives round figures. The upsurge in applications allocated in 2002 was due to a change in working methods, transferring much of the screening of inadmissible applications from the administrative, pre-judicial phase to the judicial stage.

Figure 3 High case-count States (more than 3,000 applications pending before a judicial formation)
